Powerful DREDGER-BARGES manufactured at the Tashkent Iron Casting Works attached to the Ministry of Local Industry are working on IRRIGATION canals of Kara-Kalpakia, Khorezm, and Fergana. The machines clear the canals of sand and other deposits and replace the manual labor of hundreds of men. A brigade of installation workers from the plant has just returned from assembling and launching a dredger on the (Takla-Ka) canal in Khorezm Oblast. In a few days another dredger will be assembled for the lower Amu-Darya Machine-excavator station. Dredgers are being built for the Akhun Babayev canal in Namangan Oblast. (Tashkent, Nov. 1, 1951--K)
